

What's new in this version

Add support for Reiwa era

Japanese Calendar Converter for InterSystems products

This tool helps to Convert a \$horolog value to Japanese calendar format. Or vice versa.

Installation

Import and compile the files in the src directory to a given namespace.

Examples

```
Write ##class(Util.JDate).LogicalToDisplay(70000, 1)
R140826

Write ##class(Util.JDate).LogicalToDisplay(70000, 2)
令和 14 年 08 月 26 日

Write ##class(Util.JDate).DisplayToLogical( "R140826" , 1)
70000

Write ##class(Util.JDate).DisplayToLogical( "令和 14 年 08 月 26 日" , 2)
70000
```
